SCRUM MEETING WEEK (11)

✅ Sprint planning checklist

Preparation	Meeting	Follow up
Instantiate a Database instance with dummy data for the purpose of testing. Update the database file to remove relations in order to avoid issues while testing.	Demonstrated what was completed so far in the functional website to the TA. Checked that all implemented backend tests ran so far.	Incorporate TA's feedback in adding a logout icon or button to every page in the website. Continue with deeper level of back end testing. Complete the documentation for Milestone 4.
